Allowable Subject Matter

1. **Claims 1-16, 19-24, 26-42, and 45-51** are allowed.
2. The following is an examiner's statement of reasons for allowance:

As to **claim 1**, the prior art of record, taken alone or in combination, fails to disclose or render obvious in a broad-band illuminator for illuminating a sample in an optical metrology apparatus "a first image of the first light source at a first focal position substantially coincident with the second light source" and "an aperture placed at the second focal position," in combination with the rest of the limitations of **claims 1-16 and 19-21**.

As to **claim 22**, the prior art of record, taken alone or in combination, fails to disclose or render obvious in a method of illumination "a first image of the first light source at a first focal position substantially coincident with the second light source" and "a second focal position coincident with an aperture" in combination with the rest of the limitations of **claims 22-24 and 26-27**.

As to **claim 28**, the prior art of record, taken alone or in combination, fails to disclose or render obvious in an apparatus for evaluating characteristics of a sample "a first image of the first light source at a first focal position substantially coincident with the second light source" and "an aperture placed at the second focal position," in combination with the rest of the limitations of **claims 28-42 and 45-51**.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Response to Arguments

3. Applicant's arguments, see Remarks, filed September 13, 2004, with respect to the rejection of claims under 35 U.S.C. 103(a) in previous action have been fully considered and are persuasive. Specifically, the remark that the claims as amended point to a non-Koehler illumination that differs from the Koehler illumination system of Kokubo et al. (5,686,993) is found to be persuasive. Therefore, due to the persuasiveness of the arguments and the amending of the claims, the rejection of the claims under 35 U.S.C. 103(a) has been withdrawn.

Fax/Telephone Numbers

If the applicant wishes to send a fax dealing with either a proposed amendment or a discussion with a phone interview, then the fax should:

- 1) Contain either a statement "DRAFT" or "PROPOSED AMENDMENT" on the fax cover sheet; and
- 2) Should be unsigned by the attorney or agent.

This will ensure that it will not be entered into the case and will be forwarded to the examiner as quickly as possible.

Papers related to the application may be submitted to Group 2800 by Fax transmission. Papers should be faxed to Group 2800 via the PTO Fax machine located in Crystal Plaza 4. The form of such papers must conform to the notice published in the Official Gazette, 1096 OG 30 (November 15, 1989). The CP4 Fax Machine number is: (703) 872-9306
